

Horse ridings of Doxato

In the beginnings of the previous century there were many horses and it was easy to choose a good horse. Horse ridings in the 50s and 60s were flourishing.

Today, visitors and participants come from the neighboring prefectures, even from Thessaly. This demonstration, the horse parade, is taking place for the last 20 years and people gathered to attend go beyond the total of five thousands. The horses which win the ridings have a rag on their saddles as a prize.
